

(If you want a woman to treat you right)
That's right, that's right
I think y'all need to listen to this
Stop what you're doing

Women will treat you right
But you can't be one of them looking to freak you
looking to beat you types
You got to seek light in the dark
I used to freak this mic in the park
Now I speak direct to you heart
Women want men to show respect for they art
Women don't be checkin for the chart
They go straight to sister to sister and pick it apart
Begin with the heart
Our sisters a living part
Always giving, always delivering
Always making something bigger from just a little part
Big up to the sisters to start up businesses
With nothing but muffins
Still lifting kids
Strong women, work long women
Not them dumbass dizzy, stupid thong women
King Kong women, bring it on women
Independant women with thoughts and opinions
Women like G Simone

See I may be the pharaoh
But believe she's the ?tone?
Let me leave it alone
Cuz a lot of y'all still wanna wrong
They got houses but still no home
Sittin' on chrome but forever alone
Cuz intelligent, courageous women they were never shown
They say "they don't love dem hoes"
But Jesus allowed hoes to wash and oil his toes
I don't mean to impose, but if you want a woman to treat you right
I don't think you need to start with the clothes
I think you to start with what she knows

(If you want a woman to treat you right)

That's what you got to know from the start
What's in the heart and the mind
Without that, you startin out blind
You goin in the direction of what attracted you, behind
It's like you sittin in the cell with the doors open
And you decided to sit and do the time
Free your mind
Don't pattern your life after some freestyle rhyme
See me, I'm...
